

Executive Summary – DOATokenV2 Listing Application

Project: DOATokenV2 **Network:** Polygon (Chain ID 137) **Total Supply:** 100,000,000
DOA Application Date: January 2026

Overview

DOATokenV2 is a **utility token** designed to operate within the DOA ecosystem. It enables liquidity management, community participation, and access to advanced Dashboard functions. The token is fully deployed on Polygon and integrated with major DEX platforms, ensuring transparency and accessibility.

Key Highlights

- **Utility Token Certification:** DOATokenV2 is not a security. It does not grant ownership rights, dividends, or guaranteed returns.
- **Compliance Package:** Complete AML/KYC policy, Terms of Use, and Utility Declaration prepared. Legal Opinion Letter and external audit scheduled.
- **Liquidity Depth:** \$6.4M total liquidity across pools (DOA/WPOL, DOA/USDT, DOA/USDC, DOA/DAI, DOA/WBTC).
- **Community Growth:**
 - 12,450 active wallets (+18% in last 3 months).
 - 8,200 Telegram members, 4,500 Discord participants, 12,300 Twitter/X followers.
 - 25,000 monthly website visits.
- **Adoption Metrics:** 2,350 daily transactions, diversified holder distribution, and partnerships with DeFi and NFT projects.
- **Transparency:** Audit-ready logs (`liquidity.log`, `deployments.json`) and open-source repositories with 15 contributors.

Strategic Fit for Binance

Listing DOATokenV2 on Binance will:

- Expand the reach of the DOA community globally.
- Strengthen liquidity and trading volume.
- Provide Binance users access to a transparent, compliance-ready utility token.
- Reinforce Binance's leadership in supporting innovative DeFi ecosystems.

Next Steps

The DOA team is prepared to coordinate with Binance's listing department to provide any additional documentation or technical integration required. We are committed to ensuring a smooth and compliant listing process.
