

AML/KYC Policy – DOATokenV2

1. Introduction

DOATokenV2 is committed to maintaining the highest standards of **Anti-Money Laundering (AML)** and **Know Your Customer (KYC)** compliance. This policy outlines the procedures and controls implemented to prevent illicit activities and ensure regulatory alignment with international standards.

2. Objectives

- Prevent the use of DOATokenV2 for money laundering, terrorist financing, or other illegal activities.
- Ensure transparency and accountability in all token-related transactions.
- Establish clear monitoring and reporting mechanisms.
- Cooperate with centralized exchanges and regulators in compliance processes.

3. KYC Procedures

- **User Identification:** KYC processes are delegated to centralized exchanges and regulated service providers.
- **Verification:** Exchanges must verify identity documents, proof of residence, and source of funds before enabling trading.
- **Risk Assessment:** Users are categorized into risk levels (low, medium, high) based on geographic location, transaction volume, and activity patterns.
- **Ongoing Monitoring:** Suspicious activity is flagged and reported to relevant authorities.

4. AML Controls

- **Transaction Monitoring:** Automated alerts detect unusual transaction patterns (large transfers, rapid movements, mixing services).
- **Record Keeping:** All logs (`deployments.json`, `liquidity.log`) are maintained for audit purposes.
- **Reporting:** Any suspicious activity is reported to competent authorities in accordance with FATF guidelines.
- **Collaboration:** DOATokenV2 cooperates with exchanges, auditors, and regulators to ensure compliance.

5. Governance

- **Compliance Lead:** Angel Linares (Principal Architect & Compliance Lead).
- **Review Cycle:** Policy reviewed annually or upon regulatory changes.

- **Audit:** External audits scheduled with Certik (Q1 2026).

6. Disclaimer

DOATokenV2 is a **utility token**. It does not represent equity, debt, or securities. Its use is limited to the DOA ecosystem.
